```
std::shared_ptr< tesseract  
_visualization::Visualization >
```

plotter

```
tesseract_examples  
::Example
```

```
graph LR; A[tesseract_examples::Example] -.->|env_| B[std::shared_ptr<tesseract_environment::Environment>]; A -.->|plotter_| C[std::shared_ptr<tesseract_visualization::Visualization>];
```

The diagram illustrates the dependencies of the `tesseract_examples::Example` class. It is represented by a grey box on the right. Two dashed purple arrows point from this box to two white boxes on the left. The top arrow, labeled `env_`, points to a box containing the C++ type `std::shared_ptr< tesseract_environment::Environment >`. The bottom arrow, labeled `plotter`, points to a box containing the C++ type `std::shared_ptr< tesseract_visualization::Visualization >`.
