This diagram illustrates the relationship between two source files and a common header file. At the top, a grey box represents the header file: `tesseract_motion_planners /ompl/include/tesseract_motion_planners/ompl/compound_state_validator.h`. Below it, two white boxes represent source files. The left box, `tesseract_motion_planners /ompl/src/compound_state_validator.cpp`, has a blue arrow pointing up to the header file. The right box, `tesseract_motion_planners /ompl/src/profile/ompl_real_vector_plan_profile.cpp`, also has a blue arrow pointing up to the same header file.
