

tesseract_planning
::MotionPlanner

```
graph BT; A[tesseract_planning::TrajOptIfoptMotionPlanner] --> B[tesseract_planning::MotionPlanner];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a gray rectangular box containing the text 'tesseract_planning' followed by '::TrajOptIfoptMotionPlanner' on the next line. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text 'tesseract_planning' followed by '::MotionPlanner' on the next line. This visualizes that 'TrajOptIfoptMotionPlanner' inherits from 'MotionPlanner'.
