

tesseract_planning
::Profile

```
graph BT; A[tesseract_planning::FixStateBoundsProfile] --> B[tesseract_planning::Profile];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray box containing the text 'tesseract_planning::FixStateBoundsProfile'. A blue arrow points upwards from this box to a white box at the top containing the text 'tesseract_planning::Profile'. This indicates that 'tesseract_planning::FixStateBoundsProfile' inherits from 'tesseract_planning::Profile'.
