This diagram illustrates the relationship between three source files in the tesseract_motion_planners library. At the top is a header file, `state_collision_validator.h`, which is included by two other files below it. The file on the left is `_real_vector_plan_profile.cpp`, and the file on the right is `_validator.cpp`. Both of these files have blue arrows pointing to the header file, indicating that they include it.
